## Dog Personality Profile Questionnaire

The purpose of this questionnaire is to collect information about your dog's personality. We will be asking you questions about your dog's behavior which will help us identify the dog's personality. There are no right or wrong, or good or bad answers.

### Instinctive Behavior

Dogs' natural behaviors are called instinctive behaviors and are inherited from their ancestors. Instinctive behaviors are grouped into three categories: prey (chase), pack (social interaction), and defense (self preservation). Knowing your dog's personality helps us to train and socialize your dog effectively in our daycare program.

**Directions:** Read each statement. Think about what your dog would do in each situation. Think about how your dog would behave if you hadn't trained her not to or to behave in a certain way (remember instinctive behavior) For example, asked if your dog would steal food from the counter, she might not because you trained her not to jump on the counter. But, if you hadn't trained her, would she steal food from the counter?

Then refer to the rating scale on the top of each page. Determine the number (1-7) which most accurately describes your dog's behavior in each situation. Place the number in the space next to each statement.

### Example:

#### RATING SCALE

0      1      2      3      4      5      6      7  
never      rarely      sometimes      usually      always

Does your dog:

\_\_\_\_\_ steal food from the kitchen counter?
